

B&W Handelsgesellschaft mbH: E-Commerce Application Developer – Java (m/f/d)

Arbeitsort: Bautzner Straße 129, 01099 Dresden

Einstellungstermin: nächstmöglich

We are looking for an: E-Commerce Application Developer ? Java (m/f/d) for the planning, development and support of web applications for our sales departments. Dresden / Remote / Full-Time About us: We are a European-wide online specialist retailer for electronic accessories, spare parts and consumables for electronic devices. We import high-quality, compatible product solutions and develop and produce innovative products under our own brand. Sticking to our motto Quality with passion, we have established ourselves as a young, committed and dynamic team with over 100 colleagues on marketplaces such as eBay and Amazon, as well as with our online shop Electropapa.com. Over 1.5 million customers in 86 different countries and over 10 million positive customer reviews in the last 15 years speaks for itself. What are we looking for? We are looking for a: Full-Stack Developer / Application Developer / Software Developer / Java Enthusiast / IT Rockstar There are many job titles when it comes to the implementation of new software functions and introduction of digital tools, from planning to development to productive use and evaluation. Whichever title you identify with, our Product Owner will communicate exciting functional requests with you within an agile framework and you will put these into practice independently, cross-functionally and with an array of technical details. Our current tech stack (Java EE 16 | Spring | Hibernate | JSF Primefaces | React | MySQL / Postgres | Redis | Minio | Maven | Docker / Kubernetes | Git | Linux / Windows Server | Telekom Cloud) is not set in stone and you will have the opportunity to change and adapt this. What will your tasks entail? - Further development of our sa... Hinweis: Dies ist eine gekürzte Anzeige von Jobs-Daheim.de - EB Stellen aus Homeoffice Weltweit.
