

Barkhausen Institut gGmbH: Research Associate "IT Security with focus on 5G/6G and Standardization" (m/f/d)

Arbeitsort: Würzburger Str. 46, 01187 Dresden

Einstellungstermin: nächstmöglich

The Barkhausen Institute performs research on the latest hardware, software and communication technologies and demonstrates their application in tomorrow's society. Our goal is to build a flexible and trustworthy IoT platform based on reliable electronics and secure communication methods. At the earliest possible date we are looking for a Research Associate IT Security with focus on 5G/6G and Standardization (m/f/d). The position is initially for a period of 3 years with the option of a permanent position at a later date and is remunerated according to TV-L E-13. Your responsibilities will include - Analysis of threats, vulnerabilities and security risks in the area of 5G/6G systems - Development of innovative IT security solutions to strengthen the trustworthiness of current and future mobile communication systems - Supporting participation in 5G/6G standardization and specification bodies such as O-RAN ALLIANCE or ETSI. We expect the following - Above-average university degree and doctorate in the field of IT security - An integrative and cooperative personality with excellent social and communication skills - very good command of written and spoken English - excell...
