

Kiwigrid GmbH: (Senior) Cloud Engineer (m/f/d)

Arbeitsort: Kleiststraße 10 a - c, 01129 Dresden

Einstellungstermin: nächstmöglich

Your tasksAs a Cloud Engineer in our dynamic SRE team, you will play a crucial role in ensuring the reliability, scalability and performance of our KiwiOS IoT platform and the products built on it. You will work closely with our software development teams and ensure that the decentralised energy world is available to everyone 24/7. Your tasks: - monitoring and incident management: You provide our services with the important metrics to be able to monitor our system permanently for malfunctions. In the event of an incident, you will support debugging in the Google Cloud in collaboration with the development teams in order to rectify the error as quickly as possible. Managing incident response activities and being on-call will also be part of your role. - automation and scalability: You will take our cloud infrastructure to the next level by identifying and automating recurring tasks. You will also recommend managed services from the Google Cloud to the development teams and promote their use within the company. You will also be responsible for the continuous development of our deployment process, helping the teams to achieve simpler and more secure deployments in Kiwigrids production environment. - security and compliance: You will help Kiwigrid achieve a secure cloud environment by integrating tooling to monitor vulnerabilities and detect external, potentially dangerous activities. You are involved in the creation of compliance guidelines and support audits. - documentation ... Hinweis: Dies ist eine gekürzte Anzeige von OFFICEsax.de - OFFICE Stellen aus SAX.
